

Off-Grid **HX1** Model

Our unique TIG-welded heavy-duty aluminum frame, the **AnchorRack™**, is the foundation of our entire build process. This innovative system allows us to construct the complete fit-out—including cabinetry, electrical, and plumbing—entirely outside the van. The result? A cleaner finish, significantly reduced labor costs, and faster lead times.

Crafted from TIG-welded 5005 aluminum, the AnchorRack™ provides exceptionally strong subframe structure within your van walls, ensuring your van can handle the toughest off-road tracks and corrugated roads with ease. Hinterlanders truly are built different.

Highlights

- **All-wheel Drive**
- **Lithium powered as standard**
- **170ltr Water tank**
- **5yrs Mercedes-Benz® warranty**
- **Custom Roof Rack & Awning**
- **130ltr Dometic™ fridge**

Vehicle
